

First time out -

Wow! What's all this white stuff?

And what's the matter with this thing?  
It doesn't thunder work!

I'm absolutely certain  
There's someone in there!

This certainly needs a lot more investigation.

This is nothing like what it was inside

We're not sure we like all this white stuff!

And it's cold under our toes.

How do I get up there?

We're definitely going to get up there somehow!

This way girls!

I think I've found the way.

But maybe not!
