

# The hirnant GAZETTE

## AN INTRODUCTION

**The Hirnant Gazette** is on my own web site as a 'BLOG' where News Items can be displayed as single line entries with a link to a PDF document carrying all the appropriate details. This method operates at minimum cost and is free to the Trust!.

**How it works:** Go to my web site at [www.tanyfoel.me.uk](http://www.tanyfoel.me.uk) where you click on the 'St. Illog's Hirnant' tab in the Menu Bar! 'The Hirnant Gazette' will open, and lists entries by Date but in reverse order - earliest date last. (Users will need to get used to this as it is an unchangeable quirk of the system!). Alternatively use the link <http://stilloggazette.blogspot.com/> to go directly to the Hirnant Gazette page.

This 'Gazette' will be regularly updated - *but note* -. Although this is in the form of a 'blog' the site is designed so that it is secure and cannot be modified or edited by viewers. However viewers can download or print any of the information displayed.

**Items for Display:** Any useful item can be displayed but it must be in the form of a PDF document. If you have an appropriate item that you wish to appear in the Hirnant Gazette, email it to <[notify@tanyfoel.me.uk](mailto:notify@tanyfoel.me.uk)> and it will put it on display within a couple of days.

**PDF Documents:** If you are uncertain how to create PDF documents or your system does not have a PDF facility, take a look at the attached 'Creating a PDF Document' which will give you all the know-how.

**Use of Language:** I would like to think that documents can be presented in both English and Welsh, but I think it preferable that they should be one or the other - not bilingual (both languages on the same document) - but I don't have Welsh - so - if you are able to create your document in Welsh (and English) that would be very helpful. Otherwise I will need assistance with translation when it is required.

**Range of Subjects:** Any document that can be in PDF format can be displayed, whether it be a brief note, a poster, a map or a 20 page document, so the system lends itself to a wide range of communication possibilities. If you have any ideas of suitable material to be included please let me know - most things are possible.

Arthur Tyerman, Secretary.
